

ECOMONDO® MEXICO

2024

The Environmental Technology Fair of
Latin America

April 17 - 19, 2024
Expo Guadalajara

Ecological
Solutions for
a greener
World

With the aim of bringing together **technologies and solutions** from sectors that promote the ecological transition and a circular economy, ECOMONDO MEXICO 2024 **facilitates and accelerates business opportunities** while providing networking opportunities with professional buyers and national and international investors.

From **water treatment and waste management** to bioenergy, ECOMONDO MEXICO 2024 is the ideal place to engage with the **latest ecological technologies** and specialized knowledge in the circular economy, enabling you to engage in the green businesses of the present and the future.

WHY VISIT?

Drive your company towards sustainable growth.

Become a pioneer in green businesses.

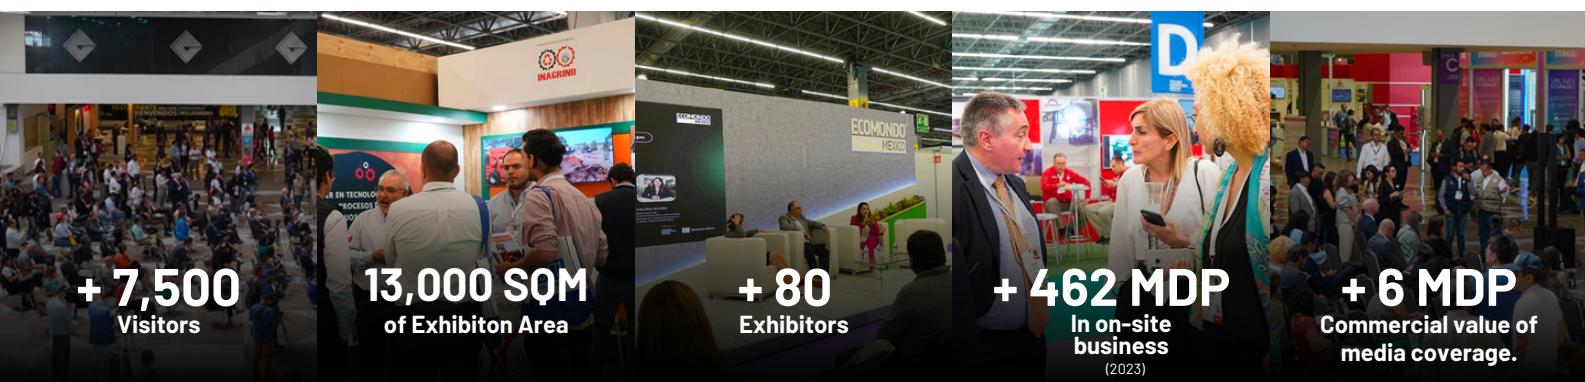

Discover the latest industry trends and innovations.

Create strategic alliances and expand your network.

Acquire the most specialized knowledge for industry sustainability.

EXPERIENCES OF OUR VISITORS AND EXHIBITORS

ECOTEC

Antonio Luna

Commercial Director at ECOTEC

"We have had many interested individuals visit our booth, both from government officials and private companies. This event has helped us greatly to connect with the various sectors that are based here in the region".

ITA®

Paolo Malifitano

Market Analyst at the Italian Agency for Foreign Trade

"We consider the second edition of Ecomondo Mexico a great success. We are convinced that it can establish itself as one of the most important events in the environmental sector for the Central American and Caribbean region. This marks the beginning of a significant era for Mexico and the world".

VISITOR

"The conferences were very insightful and left with a lot of valuable information. It was very interesting to learn from the experiences and expertise of industry experts, especially through new perspectives that were brought to us by the many international speakers".

VISITOR

"We were able to sign many contacts, spoke with very interesting exhibitors and we have the intention to participate in future editions".
