Welcome

Dear Exhibitor:

We at Italian German Exhibition Group Mexico (IGECO) are pleased to welcome you to ECOMONDO MEXICO 2024, which will be held from April 17-19, 2024 at Expo Guadalajara in the city of Guadalajara, Jalisco. We hope that your participation will be a successful experience for your company.

In this manual you will find the most important information for the planning of your participation during the days of the event, we recommend that it is important to read it carefully and familiarize yourself with its content, which includes aspects such as list of official suppliers, contracting services with the venue, as well as special rates for lodging and security measures with the host city.

This document, after being carefully read, must be signed by the person in charge of this event and sent to IGECO's operation area; it is of vital importance that you take into consideration the deadlines included in some service formats to ensure timely delivery, as well as to prevent extraordinary expenses due to last minute requests.

We are at your disposal to support you in achieving your participation objectives in ECOMONDO MEXICO 2024, please do not hesitate to contact us in case of any questions.

Sincerely yours,

Ecomondo Mexico Organizing Committee.

Remember that the use of a helmet is mandatory during the assembly and disassembly period.

Spaces with three open sides will be called "peninsulas".

The stands open on all four sides will be called "islands".

Height Limits

- Surfaces up to 18 sqm may build at a maximum height of 4 m.
- Surfaces from 19 sqm up to 53 Sq. m. may build to a height of 4m.

Double floor construction

Second floors may only be built on stands with an area of 54m² or more and must be approved by a construction project manager (DRO) licensed to operate in the state of Jalisco. Under no circumstances will double-height designs that do not meet this requirement be approved.

2. Guarantee the security of the perimeter containment with adequate railings for the respective number of visitors.
3. Display a sign indicating the loading capacity/visitor flow on the second floor.

8. Broad coverage third party civil liability policy, covering the construction activities from April 14 to 21, 2024 for a minimum amount of \$1,000,000.00 MXN.

Even if the documentation is complied with, the second floor is subject to authorization from the Organizing Committee.

Please review the attached documents for more information on shipment and delivery of merchandise, since neither the Organizing Committee nor the venue will receive any shipment, and they disclaim all responsibility.

Security

The Organizing Committee's security will protect the general areas and accesses starting **Monday, April 15 at 8:00 hrs. in 24-hour shifts. The Organizing Committee will conclude the security arrangements on Saturday, April 20 at 13:00 hrs.**

The function of the security personnel is to control access and prevent accidents and disturbances within the exhibition area. Expo Guadalajara will provide security in the exterior areas of the building.

Exhibitors are responsible for their materials, equipment and personal effects during set-up, dismantling, and during hours open to the public, so they should arrive 30 minutes before and leave after closing time.

All goods owned by the exhibitor must remain under his custody and control, both in transit and during the periods of stay within the exhibition grounds.

All decoration material, tools, furniture, documents, products, computer and telephone equipment are the responsibility of each person; therefore, it is recommended that a responsible person be assigned during assembly, event and dismantling hours.

The organizing committee and the security company do **NOT** keep control of each of the objects that enter the exhibition area, so in case of loss of any property introduced by exhibitors or decorators, there will be no reimbursement or compensation.

When the exhibitor leaves his stand, as well as the show, he must safeguard and insure his goods. Small equipment should be kept in drawers and locked with secure locks, provided that the premises are left alone during the exhibition, assembly and disassembly.

We recommend that you do not leave belongings such as bags, briefcases, backpacks or documents on the floor, under the table or in visible places; place them in a locked place that is difficult for anyone to access.

In the case of observing any suspicious person or situation in another booth or in any space of the exhibition, please help us to report it to a security element located at the access doors.

The exit of merchandise on display requires the authorization of the Organizing Committee, please contact the security personnel for the coordination of this procedure.

Security personnel are authorized to check all material entering or leaving the premises at any time, we ask for your cooperation in these controls to reduce the risk of theft and loss.

If you consider that your booth requires additional security, we recommend that you contract a special service for your exhibition area, including an inventory service for electronic exhibit equipment, which will serve as proof for possible insurance claims. Please contact the appropriate provider according to the suggested provider list or by using the enclosed service form.

Please take precautions on site to protect your valuables, such as personal computers, cell phones, briefcases, etc., as these items are very susceptible to theft. Our security provider has padlocks available to secure laptops to your booth furniture.

It is prohibited at all times to block emergency doors, fire extinguishers or fire hoses and aisles, please locate these points upon arrival. **Animals and firearms are prohibited from entering the event.**

Exhibition of machinery and/or heavy equipment:

Remember that all types of machinery or exhibition equipment must always be within the contracted space, under no circumstances may they invade the aisles, and in the event that the machinery may be dangerous for any type of audience, it will be necessary to fence with single-line posts or other objects that impede passage. Likewise, machinery that is in operation that could spread any type of particle will need to be covered with acrylic to avoid damage to the audience.

In the case of using machinery as part of the exhibition equipment, it is necessary to notify the Organizing Committee, through the machinery exhibition format with all the information of the specimens to be exhibited (brand, model, dimensions, weights, type of base or grip); type of transport (low-boy, flatbed, box, etc.); electrical consumption requirement; compressed air requirement; request for special maneuvers; number of parts that each machine consists of; type of packaging and whether it requires forklift or crane equipment for maneuvering; scale plan with the location of the equipment within its stand(s), etc.

If the technical information is not available on Friday, March 10, 2024, the Organizing Committee will not be able to include the maneuver within the normal assembly and disassembly itinerary.

In this case, once the late information is received, the assembly and disassembly service will have to be considered as special, with the exhibitor obligated to cover in advance all the expenses that may have to be incurred due to adjustment of requirements. (electrical outlets, screens, or whatever needs to be relocated).

IMPORTANT: If, for any technical reason, special maneuvers for late exhibitors affect other exhibitors already installed and the latter do not agree to move their equipment, the organizing committee will not be responsible, under any circumstances, for failure to do so. can place the samples of the exhibitor who has not submitted their technical information on time.

With complete technical information, the Organizing Committee will analyze and determine the assembly program and disassembly, indicating to each exhibitor the day, time and time of each maneuver.

The scheduled time for each exhibitor is determined based on the "preliminary" technical information that each exhibitor will fill out in the form. If on the day of the event, the exhibitor brings another machine that is different in weight, quantity, type of grip, or, if the exhibitor does not indicate in advance that it requires equipment to unpack and/or repack, the exhibitor will be obliged to cover the cost for any extra time that results.
